Campus

PERSONAL PROFILE

I am a goal-driven person and believe in hard work. I am not scared of taking on new challenges to broaden my knowledge. I believe that one should never stop learning and developing yourself and your skills. I can work independently and operate successfully as part of a team. I like taking a leadership role when given the opportunity. I enjoy working with people and believe that I can communicate effectively. I believe it is also important to have a work-life balance.

CAREER OBJECTIVES

I am passionate about Software Development and Engineering, and Data Analytics. I enjoy thinking outside the box and challenging myself. I want to add value to an organisation to ensure company growth and financial strength. I especially enjoy Java programming and see myself as a leading Java developer in a few years' time. I would like to be a part of a leading and innovative company. I want to use my talents and potential to contribute significantly to the company and my country.

ACHIEVEMENTS

2016: Currie Cup (u/19) and Leopards Sevens Rugby
2015: Rugby Craven Week
2014: Leopards (u/18) Sevens Rugby
2013: Rugby Grant Chomo Week
2012 – 2013: High School student council
2010: Primary school student council

EDUCATION

2020 – Currently busy with BSc in Information Technology (Final year)
2015 – Matriculated at Potchefstroom Gimnasium

EXPERIENCE

During 2019 I was a lecturer assistant for C# where I mostly assisted students with classwork and assignments. In 2020, I continue to be a lecturer assistant for C# as well as System Analysis and Design. Here, I am responsible to assist students with their projects.

In 2018, as part of a group project, we developed an automated prescription system that doctors could use to prescribe medicine. During 2019, we developed a Microgreen system as a group project to track harvesting dates. In 2020, I was part of a team that developed Specials Fest. This is an application used to show specials in the user's surrounding area.

I started working as an administrative clerk in 2016 at Medi-Clinic Potchefstroom. I am currently still employed at Medi-Clinic on a part-time basis. I have gained valuable experience and knowledge in the clinical fields and its applications.
